# Community Nursing Integration Project

## **Community Nursing Integration Project**

- DHB and PHOs planning for a more patient-centred, integrated model of community nursing services.
- Aligned with BOP Integrated Healthcare Strategy 2020.
- Includes District Nursing and PHO nursing services
- Governance from BOPALT
- CNSLAT developing plan
- Stakeholder/patient input critical

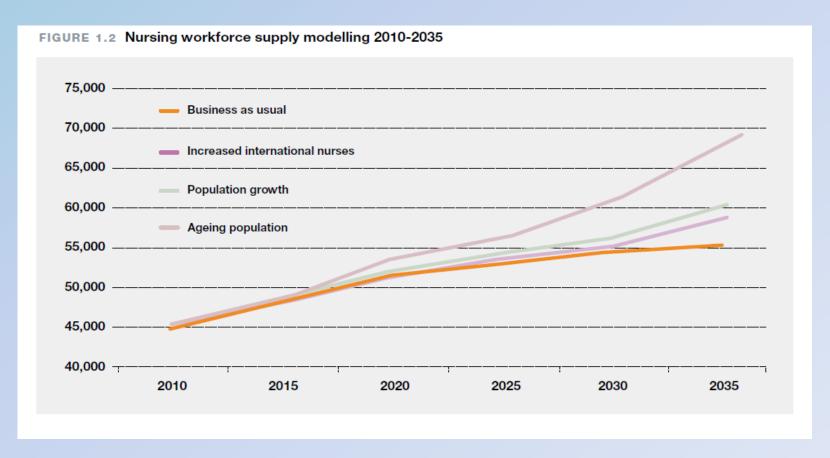

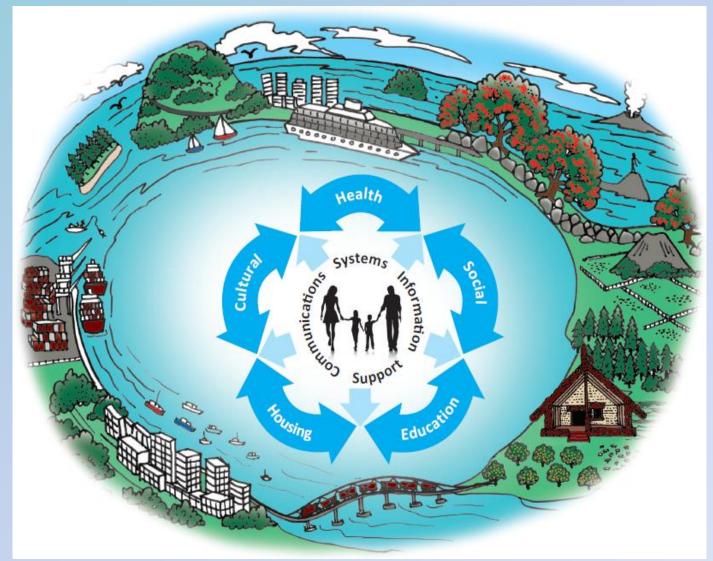

#### **Aims**

- 1. Better co-ordinated care for people in their homes;
- 2. Improve capability of primary care based teams;
- Strengthen general practice as the patient's medical home;
- Make efficient use of community and practice based workforce, skills and resources;
- 5. Develop sustainable model within existing resources;
- 6. Ensure patients receive most appropriate nursing care, by right professional, in most appropriate setting, in a timely manner.

## Why should we change?

- Central Government policy direction
- Fragmented community care
- Projected nursing workforce supply shortages

Our approach .....

Bay of Plenty Integrated Healthcare Strategy 2014-2020

#### Process and timetable

**Information** gathering; researching other models

Stakeholder/ patient engagement

Identifying ideas for improvement/ drafting plan

December 2014 March 2015

June 2015

# Questions

- 1. In your view, what is the problem to be solved?
- 2. What are the opportunities? What are the barriers?
- 3. What are community nursing doing well now that we can build on?
- 4. What's your vision for an ideal integrated community nursing service?
- 5. What would you like to see different in a year's time?
